Understanding Daniel and Revelation is dependent on the meaning of metaphorical terms and words. The primary object is the “man clothed in linen” (Dan. 12:6,7) whose action, “he held up his right hand and his left hand unto heaven” is the universal signal to **STOP**. The time frame for these instructions is “that it shall be for a time, times, and an half” (Dan. 12:7). Suffice it to say “a time” in Roman times was **ten**, it still is today the primary multiplier of the Roman Numeral System of Mathematics. So, its 10 plus 20 plus 15 = 45. At the end of forty-five (45) years we are instructed to **STOP**.

This is the entire framework of the prophecy of the last “end of the days” of Daniel. The primary player, “And he shall plant the tabernacle (calendar) of his palace (zero year) between the seas (B.C. – A.D.) in the glorious holy mountain (heavenly ordained calendar); yet he shall come to his end, and none shall help him.” (Dan. 11:45). This isn’t Jesus Christ (Most Holy); rather it is Julius Caesar (Messiah the Prince). “. . .in his estate. . . a vile person. . . not give the honour of the kingdom. . . obtain the kingdom by flatteries. . . shall be broken. . . the **prince of the covenant**” (Dan. 11: 21,22).

This mistaken identity has gone on for more than two (2) thousand years. Jesus Christ himself denied being this particular “Messiah” when Peter rebuked Jesus and was called Satan for his referral to the christ/messiah “that be of men” (Matt. 11: 21-28). The conclusion drawn can be there are two different Messiah’s. Daniel’s Messiah was “cut off” (Dan. 9:24-27) before the zero year, definitely not Jesus Christ. Jesus Christ admits being the true Messiah “I that speak unto thee am he.” (John 4:24,25).

The key element in this prophesy is the zero year (time of the end). In 49 B.C. Julius Caesar accepted the role of Dictator. The Julian calendar was established in 46 B.C. and changes were instituted in 45 B.C. from advice of Sosigenes and called the “year of confusion”. The real prophetic calendar was 44 B.C. after all of the changes were established. All of the dates in Daniel are redundant, they all end at year zero. The basic calendric problem was Julius Caesar was murdered and the Roman Mathematical System took over. To this day they use inclusive mathematic without a zero. They have no zero thus zero equal one; one equals two; two equals three; etc.

This was disastrous to calendar accuracy of any kind. The leap day was inserted every three (3) years instead of every fourth (4<sup>th</sup>) year. "And it waxed great, even to the host of heaven; and it cast down some of the host (days) and of the stars (leap days) to the ground, and stamped upon them." (Dan. 8:10). In a short matter of time "the prince that shall come shall destroy the city and the sanctuary" (the seven-day week and the year; Dan. 9:26). We have never had an accurate Tropical calendar since 44 B.C. This is why when Jesus Christ returns, he will bring with him Julius Caesar's 44 B.C. calendar with the Heavenly ordained month names. "And I looked, and lo, a Lamb stood on the mount Sion, and with him an hundred forty and four thousand, having his Father's name written in their foreheads." (Rev. 14:1). Of course John the Revelator was in prison so had to use fake words (hundred; thousand) inserted to get the message to us today.
